JULY 2025 KIT of the MONTH

HD FLEET TECHNICIAN'S ELECTRICAL TERMINAL MAINTENANCE SET

PART NUMBER	DESCRIPTION	ORIGINAL PRICE
IPA-8048-SP	This kit is designed for servicing and preventative maintenance for all vehicle electrical connections in commercial heavy duty fleets.	\$149.99

Prices valid July 1, 2025 through July 31, 2025

Set Features & Benefits:

- Patented terminal cleaning system designed for fast, effective restoration of electrical connectors across fleet, automotive, aircraft, and MRO applications
- Compatible with Deutsch, Cannon, Weather Pack, 7-way round, ABS sensor plugs, bullet connectors, and other common terminals found in heavy-duty systems
- Removes corrosion and restores connectivity, prolonging the lifespan of electrical harnesses and overall vehicle reliability
- Includes 12 professional-grade tools, including diamond-coated terminal cleaners, micro round files, and bullet connector tools for male and female terminals
- Packaged in a premium leather holster with magnetic clasp—ideal for shop technicians, mobile service, and field diagnostics
