Features:

- Shorter in length, increased precision for holes, long-lasting durability and performance
- Unique tip reduces heat generation and improves cutting tool longevity
- Easily enlarges existing holes without damaging the point.
- Split-point design gives accurate start and self-centering eliminates the need for a center punch
- Ideal for hardened steel, stainless steel, brass and cast iron
- 51 total pieces ranging from 1/16"–1/2" by 64^{ths}
- 3-flats on shank eliminates slippage
- Stays sharp for 4 times the duration of standard equivalents
